Profile Summary and Key Interests

I am an urban geographer (PhD) with a design focus. My research interests and expertise are inclusive urban regeneration, placemaking in area redevelopment, citizen participation, socio-physical design in (poor) neighbourhoods, and gentrification. I aim to merge scientific knowledge with practitioner experience and experiential learning in the design of neighbourhood redevelopment projects.

In education, I lead community-engaged learning and transdisciplinary collaborations between (design) students, residents, and practitioners from neighbourhood organisations. This is based in a cross-over between my research and education innovation as a designated TU Delft Education Fellow.

Current Positions

- **Associate Professor of Urban Regeneration**, Department of Urbanism, Faculty of Architecture and the Built Environment, Delft University of Technology.
- **Research Leader** of the **Department of Urbanism**, responsible for strengthening the research climate, coherence and strategic development, leading the departmental Daily Board of Research and liaising with the Research Leaders of the other departments.
- **TU Delft Education Fellow (2020-2021)**, conducted an educational innovation project on community-engaged learning and led its cross-departmental dissemination across TU Delft.
- **Executive Board Member** of the LDE Centre **Governance of Migration and Diversity**, acting as TU Delft co-ordinator and leading the program development of this Centre together with colleagues from Leiden University and Erasmus University Rotterdam.
- **Senior University Teaching Qualification (SUTQ) Assessor**, responsible for providing feedback and assessment for TU Delft participants in this program.
- **Chair of the Advisory Board** of the **Platform Collectieve Kracht**, responsible for leading the development of strategic advice for this national platform (for citizen collectives).
